

## SETTING UP APPLICATION ENVIRONMENT CREATING AN ACCOUNT IN SENDGRID

DATE	13-Nov-2022
TEAM ID	PNT2022TMID04368
PROJECT	PLASMA DONOR APPLICATION

The screenshot shows a web browser window with the URL `app.sendgrid.com/guide?from=profile&integrate=true`. The browser's address bar and tabs are visible at the top. The main content area of the page is titled "Welcome, Gayathiri!" and includes a sub-header "Send your first emails with Twilio SendGrid". Below this, there is a section titled "Create a sender identity" which explains the need for a sender identity and provides two options: "Create a Single Sender" (highlighted with a blue button) and "Authenticate a domain instead". A diagram illustrates the sender identity as the "from" email address. The left sidebar contains navigation links for Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, and Settings. The bottom of the image shows a Windows taskbar with various application icons and a system tray displaying the date and time as 3:04 PM on 11/13/2022.

### Welcome, Gayathiri!

To get up and running quickly, please follow the steps outlined below.

#### Send your first emails with Twilio SendGrid

#### Create a sender identity

Before sending email, you'll need to create a sender identity. There are [two ways](#) to do this, but we recommend creating a Single Sender to get set up quickly and test your email integration.

Your sender identity is the "from" email address your recipients will see in their inbox. [Learn more](#) about this.

[Create a Single Sender](#) [Authenticate a domain instead](#)
